PLAYER STATS **6 years** agency-side • **40+** integrated marketing projects a year
10 to 20+ cross-functional teammates aligned • **$100K+** workstream budgets tracked • **7** community events organized

PROFESSIONAL SUMMARY

Agency-side marketing project manager with 6 years of experience running integrated campaigns from brief to delivery across digital, social, OOH, video, web, and activations, with creative, account, digital, strategy, media, and production teams working from one plan. Commercial mindset built on consumer-facing pricing campaigns for major homebuilding brands, budget and billing ownership on workstreams valued at $100K+, and deadline-driven RFP responses. Hands-on AI adopter (Claude, Claude Code) who has led tool evaluations and presented recommendations to leadership. Ready to bring that mix of creativity and structure to integrated commercial marketing for Toronto FC and the Toronto Argonauts, working with Ticketing, Global Partnerships, Retail, and Game Operations to grow fandom and revenue.

PROFESSIONAL EXPERIENCE

Marketing Project Manager | **The Turn Lab** | Toronto, ON — Oct 2021 - Present

- Drive 40+ integrated marketing projects a year from brief to delivery, including social campaigns, digital activations, OOH content, video productions, web builds, and RFP responses, across multiple client accounts at once.
- Gather requirements from external stakeholders and turn client briefs into project plans, workback schedules, and resource allocations, then adjust timelines as priorities shift so deliverables land on time and within scope.
- Connect 10 to 20+ cross-functional team members across creative, digital, strategy, media, and production through structured workflows and clear communication rhythms.
- Own the creative review and approval process as the internal quality filter before assets reach clients, with structured feedback loops that keep revision cycles short.
- Track budgets and manage project billing across concurrent workstreams valued at $100K+, and report on them to account leads and senior stakeholders.
- Facilitate client and internal meetings with agendas, recap notes, and follow-up action items, and keep project records current so status, risks, and next steps stay visible to everyone.
- Lead AI tool evaluations and chatbot vendor assessments, present recommendations to leadership, and drive workflow automation improvements adopted across marketing and operations.
- Monitor progress continuously, flag risks and bottlenecks early, and adjust plans proactively to protect timelines and client relationships.

Marketing Project Manager | **Competition & Currency** | London, ON — Sep 2020 - Oct 2021

- Managed full project delivery for digital campaigns and content programs, keeping detailed project plans, schedules, and budgets across an active client portfolio.
- Coordinated internal teams and external vendors, tracked milestones, and flagged risks to keep deliverables on track within tight timelines.
- Wrote clear, consistent stakeholder updates on project status and next steps for internal teams and clients.

SELECTED ACHIEVEMENTS

- Managed multi-channel, consumer-facing digital campaigns for major homebuilding brands, coordinating pricing campaigns, landing pages, social content, and video across multiple concurrent workstreams.
- Led complex RFP and proposal responses under tight deadlines, coordinating multi-section submissions across copy, design, strategy, and stakeholder review.
- Managed podcast and content production programs from concept to launch, coordinating creative teams and production partners through every planning, review, and delivery milestone.
